

A. This beautiful pure silver Elvis pendant was struck in limited numbers by the Royal Canadian Mint exclusively for Legendary Collectables. The front depicts Elvis at his best from one of his most famous concerts, Elvis in Hawaii. The reverse is a detailed image of his home, Graceland.

B. Legendary Collectables is proud to present our new line of Premium Coin Watches.

We have developed a new and exciting form of watch making. The process begins with the Royal Canadian Mint striking actual Elvis Presley coins (medals) in pure silver which becomes the face of the watch. To enhance the image we then apply a Two-Toned process whereby we gold plate the Elvis image only, leaving the background a shiny silver. Gone forever are the days of the paper or plastic dials. There are 3 different designs in all and each one is available in a man's style, lady's style and pocket watch. Each Timepiece is presented in a Prestige Presentation Case with accompanying pillow for ease of storage and display. The case adorned in gold lettering reads "Elvis A Legend in Time".

These watches are not available in stores and are available through this offer only. Limited to only one hundred of each style, orders will be taken in sequence and filled accordingly.
